Article on the Farm Bill that passed
From the article we learn the bill and public law number – and the action taken on Snap

The deal closed a long process that included multiple attempts by leaders of the House and Senate Agriculture committees to renew the 2008 law (PL 110-246), parts of which had been extended temporarily into late 2013. The House adopted the conference report 251-166 on Jan. 29, the Senate cleared it by a vote of 68-32 on Feb. 4, and President Barack Obama signed the legislation (HR 2642 — PL 113-79) on Feb. 7.

Nutrition Programs

The $8.6 billion cut to the SNAP program over 10 years represents a net $8 billion in savings on nutrition programs because the law increases funding for programs that provide commodities to food banks and food pantries, and that give SNAP beneficiaries more buying power at farmers markets.

The reduction is double the $4 billion that the Democratic-led Senate originally proposed in its farm bill (S 954), but far below the $40 billion cut many House Republicans had sought.
